## The Work

From a professional viewpoint, our office enjoys a client base and a working system that fosters positive challenges and opportunities. Our clients represent diverse markets within a variety of industries, so no two jobs are exactly alike. Additionally, a number of our partners have significant experience with national accounting firms, and staff members work with the partners in an easy, open, accessible manner. The environment is one of creative planning and solutions, professional respect, and constant professional growth.

**SKR + Co.** also enables personal and professional growth outside of our projects. We encourage and host professional and leadership development both through office-sponsored events and outside organizations, and we support staff as participants in the community.

## The Culture

From a lifestyle viewpoint, we are open to flexible work patterns. Currently, a number of staff members work the standard Monday through Friday workweek while others are accommodated with a variety of flex and part time schedules. As long as we're able to fulfill our obligations to clients, we're willing to consider a range of scenarios.

Our staff puts importance on the work, of course, but also enjoys the kind of relaxed atmosphere that allows for light-hearted moments, even in the heat of tax season. The firm also sponsors various relaxing activities, such as whitewater rafting trips and family outings to Sky Sox baseball games. It all adds up to a great place to build a career.

We make every effort to provide you with a meaningful and rewarding career.

## The Rewards

**SKR + Co.** isn't the biggest accounting firm in the nation, but our generous benefits and compensation packages cater to talent on a national level. Given the additional advantages of our open, professional atmosphere and our idyllic location in family-friendly, naturally-stunning Colorado Springs, we consider the firm one of the nation's top choices for accounting careers.
